

We can exercise your face and your body, back into shape, instantly and effortlessly.

- ◆ **Instant results first time.**
- ◆ **Programmed to individual needs.**
- ◆ **Unique transverse muscle stimulation.**
- ◆ **Increases metabolic rate.**
- ◆ **Stimulates lymphatic system.**

Look in the mirror. It reveals the way we really are. If the face and body you see looks older than the way you feel, it is time to take action and do something.

Imagine a face lift without surgery!

Make up can camouflage and some skin care products might soften the edges.

You may think that the only solution to the puffy eyes, double chin, dark circles, lines and wrinkles that life has thrown at you is cosmetic surgery, but could you stand the pain, risk and cost?

Transion works with you. Automatic and effortless exercises in just 15 minutes.

But Transion is not a miracle. It is the intelligent use of physics, biology and computer technology, developed by doctors determined to find a perfect way to exercise our muscles to restore our bodies naturally.

Transion stimulates your muscles into exercise, perfect to speed up your metabolism, firm slack skin and relieve fluid retention.

Transion gently exercises your facial muscles to help lift them back into their former beauty. Transion is a new experience that is absolutely unique

This equipment belongs to the sixth generation of the Transion family; more powerful, it is applied for slimming and firming, for wrinkle elimination and for muscle invigoration.

The Transion is an electro-stimulator, generating trains of trapezoidal waves with variable and adjustable duration acting on the peripheral nervous system, which, in turn, intervenes on the muscles where the facial pads or the body plates are located.

Due to the particular wave form and to the special location of the plates, the electrical stimulation induces not only the normal longitudinal muscle movement, but also a further transverse action of torsion.

Transion can offer you the very latest way to lift and firm.

To prove how well Transion can work for you telephone today to book your first treatment.01527 836958.

TRANSION

Body Toning Treatment.

Immediate results after the first treatment and in only 15 minutes, with a decrease in centimetres of the treated part.

The treatment acts as follows:

- The faradic wave enables the toning of the muscle system.
- The torsion movement enables the liquid and soluble elimination.
- The trapezoidal wave form enables the breaking of the saturated fat chains and the consequent lipid elimination.

Digital adjustment of the frequency of the pulse trains, and adjustment to the wave frequency enables the treatment to be either more slimming or more firming.

TRANSION

Non Surgical face lift
Course of nine treatments
£250.00
Single treatment £26.95

Body Toning Treatment
Course of ten treatments
£140.00
Single treatment £17.00
